

Project Name: ATM Functionality Testing	
Test Case 1: ATM Pin Generation	
Test Case ID: 001	Test Designed by: Onkar Malawade
Test Priority (Low/Medium/High): High	Test Designed date: 2024-08-08
Module Name: Account Balance Inquiry	Test Executed by: Onkar Malawade
Test Title: Verify Correct Balance Display	Test Execution date: 2024-08-09
Description: Generate ATM pin	
Pre-conditions: ATM Card and Registered Phone Number to that Account.	
Dependencies: Network connectivity to the bank server.	

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Insert ATM card into the machine	Valid ATM card	ATM prompts for Green PIN	ATM prompted for Green PIN	Pass
2	Enter Green PIN Send to phone number	Correct Green PIN	ATM displays menu with "SET PIN"	"SET PIN" displayed	Pass
3	Enter Green PIN Send to phone number	Incorrect Green PIN	Displays "Sorry Incorrect G-PIN"	"Sorry Incorrect G-PIN" Displayed	Pass
3	Select "SET PIN"	New PIN	Displays "Thank You"	"Thank You" Displayed	Pass

Post-conditions: User session should end securely.

Project Name: ATM Functionality Testing	
Test Case 2: Account Balance Inquiry	
Test Case ID: 002	Test Designed by: Onkar Malawade
Test Priority (Low/Medium/High): High	Test Designed date: 2024-08-08
Module Name: Account Balance Inquiry	Test Executed by: Onkar Malawade
Test Title: Verify Correct Balance Display	Test Execution date: 2024-08-09
Description: Verify that the ATM displays the correct balance for valid and invalid accounts.	
Pre-conditions: User must have a valid ATM card and know the PIN.	
Dependencies: Network connectivity to the bank server.	

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Insert ATM card into the machine	Valid ATM card	ATM prompts for PIN	ATM prompted for PIN	Pass
2	Enter PIN	Correct PIN	ATM displays menu with "Balance Inquiry"	"Balance Inquiry" displayed	Pass
3	Select "Balance Inquiry"	N/A	Correct balance is displayed	Correct balance displayed	Pass
4	Enter PIN	Incorrect PIN	ATM displays error message	Error message displayed	Pass
5	Select "Balance Inquiry"	Invalid account number	ATM displays error or account not found	Error message displayed	Pass

Post-conditions: User session should end securely.

Project Name: ATM Functionality Testing	
Test Case 3: Cash Withdrawal	
Test Case ID: 003	Test Designed by: Onkar Malawade
Test Priority (Low/Medium/High): High	Test Designed date: 2024-08-08
Module Name: Cash Withdrawal	Test Executed by: Onkar Malawade
Test Title: Verify Cash Withdrawal Process	Test Execution date: 2024-08-09
Description: Verify the cash withdrawal process, including successful transactions, withdrawal limits, and handling insufficient funds.	
Pre-conditions: User must have a valid ATM card, know the PIN, and have sufficient funds in the account.	
Dependencies: Network connectivity to the bank server.	

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Insert ATM card into the machine	Valid ATM card	ATM prompts for PIN	ATM prompted for PIN	Pass
2	Enter PIN	Correct PIN	ATM displays menu with "Withdrawal" option	"Withdrawal" option displayed	Pass
3	Select "Balance Inquiry"	N/A	ATM prompts for withdrawal amount	Prompt for amount displayed	Pass
4	Enter withdrawal amount	Amount less than balance	ATM dispenses cash	Cash dispensed	Pass
5	Enter withdrawal amount	Amount exceeding balance	ATM displays "Insufficient Funds" message	"Insufficient Funds" message displayed	Pass
6	Enter withdrawal amount	Amount exceeding limit	ATM displays "Exceeds Withdrawal Limit"	"Exceeds Withdrawal Limit" message displayed	Pass

Post-conditions: Cash should be dispensed, and the account balance should update accordingly.

Project Name: ATM Functionality Testing	
Test Case 4: Deposit Functionality	
Test Case ID: 004	Test Designed by: Onkar Malawade
Test Priority (Low/Medium/High): Medium	Test Designed date: 2024-08-08
Module Name: Deposit Functionality	Test Executed by: Onkar Malawade
Test Title: Verify Deposit Processing	Test Execution date: 2024-08-09
Description: Validate the processing of cash and check deposits.	

Pre-conditions: User must have a valid ATM card, know the PIN, and have items to deposit.

Dependencies: Network connectivity to the bank server

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Insert ATM card into the machine	Valid ATM card	ATM prompts for PIN	ATM prompted for PIN	Pass
2	Enter PIN	Correct PIN	ATM displays menu with "Deposit" option	"Deposit" option displayed	Pass
3	Select "Deposit"	N/A	ATM prompts deposit type	Prompt for deposit type displayed	Pass
4	Insert cash	Cash to deposit	ATM accepts and counts cash	Cash accepted and counted	Pass
5	Insert check	Check to deposit	ATM accepts and verifies check	Check accepted and verified	Pass
6	Confirm deposit	N/A	ATM updates account balance	Account balance updated	Pass

Post-conditions: Deposit should be reflected in the account balance.

Project Name: ATM Functionality Testing	
Test Case 5: Error Handling	
Test Case ID: 005	Test Designed by: Onkar Malawade
Test Priority (Low/Medium/High): High	Test Designed date: 2024-08-08
Module Name: Error Handling	Test Executed by: Onkar Malawade
Test Title: Validate Error Handling	Test Execution date: 2024-08-09
Description: Ensure proper error handling for scenarios like card read failures, incorrect PIN entries, and network issues.	
Pre-conditions: User must have a valid ATM card.	
Dependencies: None	

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Insert ATM card into the machine	Valid ATM card	ATM prompts for PIN	ATM prompted for PIN	Pass
2	Enter PIN	Incorrect PIN	ATM displays "Incorrect PIN" message	"Incorrect PIN" message displayed	Pass
3	Attempt transaction	N/A	ATM shows "Network Error" message if disconnected	"Network Error" message displayed	Pass
4	Reinsert card after failure	N/A	ATM prompts to start over	Prompt to start over displayed	Pass
5	ATM runs out of cash	N/A	ATM displays "Cash dispenser is empty"	"Cash dispenser is empty" message displayed	Pass

Post-conditions: User should be informed of the error and offered a chance to retry or cancel.

Project Name: Facebook User Profile	
Test Case 1: Profile Creation and Updates	
Test Case ID: TC001	Test Designed by: Onkar Malawade
Test Priority (Low/Medium/High): High	Test Designed date: 2024-08-08
Module Name: Profile Creation	Test Executed by: Onkar Malawade
Test Title: Profile Creation and Updates	Test Execution date: 2024-08-09
Description: Test the functionality of creating a new profile, updating profile information. and saving changes.	
Pre-conditions: User must have a valid email address and the Facebook app installed.	
Dependencies: Stable internet connection	

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Open Facebook	Valid Email	Facebook open successfully	Facebook opened successfully	Pass
2	Click on "Create on New Profile"	Name, Password, Email, Date of Birth.	Profile creation screen should be displayed	Profile creation screen displayed	Pass
3	Enter Valid Profile information and save	User Details	Profile should be created successfully.	Profile created successfully.	Pass
4	Update profile information	Update Bio text	Profile information should be updated and saved successfully.	Profile information updated and saved successfully.	Pass

Post-conditions: Profile is created and updates are saved successfully.

Project Name: Facebook User Profile	
Test Case 2: Profile Picture and Cover Photo Management	
Test Case ID: TC002	Test Designed by: Onkar Malawade
Test Priority (Low/Medium/High): High	Test Designed date: 2024-08-08
Module Name: Profile Picture Management	Test Executed by: Onkar Malawade
Test Title: Profile Picture and Cover Photo Management	Test Execution date: 2024-08-09
Description: Validate uploading, changing, and deleting profile and Cover photos.	
Pre-conditions: User must have a valid Facebook profile.	
Dependencies: user must have access to the photo gallery.	

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Navigate to the profile picture section	Logged-In user	Profile picture section should be displayed.	Profile picture section displayed.	Pass
2	Upload a new profile picture	New picture file	Profile picture should be uploaded successfully.	Profile picture uploaded successfully.	Pass
3	Change profile picture	Different picture file.	Profile picture should be uploaded successfully.	Profile picture uploaded successfully.	Pass
4	Delete profile picture		Profile picture should be removed successfully.	Profile picture removed successfully.	Pass
5	Upload a cover photo	New cover profile photo	Cover photo should be uploaded successfully.	Cover photo uploaded successfully.	Pass

Post-conditions: Profile is created and updates are saved successfully.

Project Name: Facebook User Profile	
Test Case 3: Privacy Settings Configuration	
Test Case ID: TC003	Test Designed by: Onkar Malawade
Test Priority (Low/Medium/High): High	Test Designed date: 2024-08-08
Module Name: Profile Picture Management	Test Executed by: Onkar Malawade
Test Title: Privacy Settings Configuration	Test Execution date: 2024-08-09
Description: Ensure that privacy settings can be configured and correctly control the visibility of profile information.	
Pre-conditions: User must be logged into Facebook.	
Dependencies: System should have default privacy settings enabled.	

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Navigate to privacy settings	Logged-In user	Privacy settings screen should be displayed.	Privacy setting screen displayed.	Pass
2	Change profile visibility to "Only Friends"		Profile visibility should be changed to "Friends Only"	Profile visibility changed to "Friends Only"	Pass
3	Change profile visibility to "Only Me"		Profile visibility should be changed to "Only Me"	Profile visibility changed to "Only Me"	Pass
4	Verify that profile information is hidden	Another Account	Profile Information should be hidden according to settings.	Profile information hidden according to settings.	Pass

Post-conditions: Privacy settings are configured correctly.
--

Project Name: Facebook User Profile	
Test Case 4: Friend Requests and Management	
Test Case ID: TC004	Test Designed by: Onkar Malawade
Test Priority (Low/Medium/High): High	Test Designed date: 2024-08-08
Module Name: Friend Interaction	Test Executed by: Onkar Malawade
Test Title: Friend Requests and Management.	Test Execution date: 2024-08-09
Description: Test sending, receiving, and managing friend requests, and verifying friend lists.	
Pre-conditions: User must have a Facebook account and be logged in.	
Dependencies: Other users must be available to send and receive friend requests.	

Step	Test Steps	Test Data	Expected Result	Actual Result	Status (Pass/Fail)
1	Send a friend request to another user	Other user's profile	Friend request should be sent successfully.	Friend request sent successfully.	Pass
2	Receive and accept a friend requests.	Other use's friend request.	Friend request should be accepted successfully.	Friend request accept successfully,	Pass
